It aims by means of text and illustrations to give such facts about the art of wood-turning as are needed by students and teachers in the schools. In giving these facts, whenever there is a question between two methods of procedure, the one being the method of the factory expert in wood-turning, and the other the method of the art craftsman in the school, the latter has been employed. Besides being a book of instruction on the process of wood-turning, it is a book of problems, in the designing of which the author has constantly aimed to recognize beauty of form. As indicated by the title of the book, the author's chief purpose has been to make a contribution to the teaching of art and to education, thru the fine old craft of wood-turning. Acknowledgments are hereby given to my wife for her untiring assistance in compiling the text of the book. I gratefully acknowledge, also, the willing attitude of my students in helping to work out the models, in posing for the photographic illustrations and in co-operating in the working out of a higher type of wood-turning. For the working...
