LIGHT LINES AND LIFE LINES: A NATURAL PHILOSOPHY

Createspace, United States, 2009. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book is a compilation of proverbs and insights written by the author that span for more than twenty years of observation and meditation. This work is from among a collection of seven literary projects. All the passages in this book are designed either as equilateral statements with a third person perspective or with a three dimensional creative touch. It was first meant as a personal educational tool, but eventually grew into a useful baseline that doesn't care what year it is or where you live. It is not meant for the learned philosophers who could argue all day about proper disciplines of discussion. But for those of you who will be stepping into the future with hopes of inner awareness and survival, may it serve you well.
