*These kinds of book is every thing and helped me hunting forward plus more. It is probably the most remarkable book we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from South America and the War: Being the Substance of a Course of Lectures Delivered in the University of London, King s College Under the Tooke Trust in the Lent Term, 1918 This little book contains the substance, revised and adapted for publication, of lectures given in the Lent Term, 1918, at King s College, London, under the Tooke Trust for providing lectures on economic subjects. The course of lectures was in the first instance an endeavour to perform a war-service by drawing attention to the activity of the Germans in Latin America, and particularly to the ingenuity and tenacity of their efforts to hold their economic ground during the war, with a view to extending it after the conclusion of peace. A second object was to examine more generally the bearings of the war on those countries, and the influence of the present crisis on their development and status in the world. These two topics, though closely connected, are distinct. The first has an immediate and present importance, the second has a wider historic significance. The logical connexion between them may not seem obvious. Yet the first enquiry, concerning German war-efforts in Latin America, naturally and inevitably led to the second, concerning the larger issues involved. The former topic is treated in Chapters I, II and III, the latter in Chapters IV, V and VI. The term South America is used in the title of this book as a matter of customary convenience; but it is not meant to exclude the Antillean Republics or the Latin-American States stretching to the North-west of the Isthmus of Panama.
