Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Sewerage and Sewage Purification One of the earliest volumes in this series was Sewerage and Sewage Utilization, by Professor W. H. Corfield, of the University of London. Appearing in 1875, when only a few score American cities had sewerage systems worthy the name, and when sewage purification was practically unknown in this country the little book was and for many years continued to be of great service this side the water. When, after twenty years, the publishers requested the author to revise the book, he found revision, or even re-writing, entirely out of the question, so ill-suited were its matter and method to modern American conditions. There being a strong demand for a brief but comprehensive book on the subject, it was decided that an entirely new one should be written.
